Scale—Half Inch to the Foot.

HENRY DOULTON AND CO.'S
TERRA COTTA CHIMNEY TOPS AND SHAFTS.

SCALE—HALF INCH TO THE FOOT.

H. DOULTON & Co. keep a large assortment of Terra Cotta Chimney Tops in stock, at Lambeth, but, in consequence of the great variety now manufactured, it is desirable to give a fortnight's notice when a number of the more Ornamental Pots are required.

H. DOULTON & Co.'s **Terra Cotta Flue Pipes** clean easily, and form an uniform and perfect passage for the Smoke.—9" and 12" diam., with Socket or Butt Joints, kept in Stock.

H. DOULTON & Co.'s **Patent Smoke & Air Flues** combine the advantages of the Flue Pipes with provision for perfect Ventilation. The Ventilating Shaft is connected with the Smoke Flue. Manufactured in 18" lengths, and constructed so as to bond with ordinary brick-work.
